

DC Appointment Scheduler

Yusen Logistics has developed the dray management tool - DC Appointment Scheduler within its Griffin supply chain management system enabling customers to streamline supply chain activities with greater visibility at destination.

■ Configurable destination milestones

- Cargo Available Date
- Date of Free Time End
- Date of Gate out from Carrier
- Actual Delivery Date
- Cargo Empty Date
- Empty Equipment Pickup Date
- Empty Equipment Return Date

■ Online DC Appointment Scheduler

- Separation of system access and work flow for:
 - Trucker
 - Distribution Center or Transload Warehouse
 - Corporate Central control
- Container milestones at different stages input by separate parties

■ Benefits

- Visibility from arrival till empty container has been returned
- Ensures smooth cargo release at destination
- Supports local distribution, warehousing and product returns
- Centralized tools to control and monitor container milestone along destination chain
- Avoid detention and demurrage fees

■ Destination Visibility

- Integrated to visibility tool
- Container status search parameters
 - PO Number
 - Container Number
 - Vessel Name / Voyage Number
 - Date Ranges (POL ETD, POD ATA and POA ETA)
 - POL, POD, POA
 - Carrier
 - DC

■ Management Reporting & email notification

- Auto report generation & distribution
- Auto email empty notification to carriers
