

# WANT TO BE AT THE FOREFRONT OF THE AUTOMOTIVE SUPPLY CHAIN INDUSTRY?

## Division Head of Yusen's European Automotive Control Tower

Yusen Logistics is working to become the world's preferred supply chain logistics company. Our complete offer is designed to forge better connections between businesses, customers and communities – through innovative supply chain management, freight forwarding, warehousing and distribution services. As a company we're dedicated to a culture of continuous improvement, ensuring everyone who works with us is committed, connected and creative in making us the world's preferred choice.

### 1. Location

Yusen Logistics, Prague, The Czech Republic

### 2. Benefits

Competitive salary according to market standards  
Located in one of the most dynamic cities in Europe

### 3. Preferred skills & qualifications

- Minimum 8 years of experience within 4PL/3PL Management of Land Transportation services.
- Proven senior leadership experience in the Automotive Logistics environment
- Ability to demonstrate successful Project management and implementation within the automotive industry
- University degree
- Business and Finance Acumen
- Fluent in English, other European Language is a plus

**We are looking for an experienced, highly motivated and customer focused leader who can develop and drive this product forward.**

You will join a team of highly driven experts in the automotive industry who are committed to delivering an exceptional customer centric product.

### Your impact

You will have the chance to redesign the complete supply chain set-up of Yusen Logistics automotive customer base throughout Europe.

### Your responsibilities

- Manage the continuous development of our European Automotive Control Tower (EACT)
- Expand the EACTs current team, capability and service portfolio
- Advise, develop and improve all aspects of the EACTs system of operational excellence
- You can create a scalable business development strategy to ensure the product grows and evolves to meet our Supply chain needs.
- Ensure full budget and P&L transparency for the EACT.

You demonstrate the ability to effectively connect people, processes and technology to deliver robust efficient ways-of-working, in a defined systematic manner. You are adept at managing key project stakeholder expectations with effective and proactive communication. You have excellent communication skills across multiple levels of engagement.

European Automotive Control Tower is a unique and quickly developing product. You will have the chance to be at the steering wheel of a truly innovative product in the automotive industry.
